

An aerial photograph of a rugged coastal cliffside. The cliff is covered in dense green forest and has a winding path along its edge. A small white lighthouse with a red top is situated on the cliff. The water is a deep blue-green, and a boat is visible in the lower right corner, leaving a white wake. The sky is a pale, hazy blue.

BROKERAGE AND ADVISORY SERVICES

STRATEGIC INSIGHT AND DISCIPLINED EXECUTION THAT DELIVER RESULTS.

Gammon provides strategic brokerage and advisory services across redevelopment sites, investment properties, and commercial leasing throughout Metro Vancouver. Drawing on decades of local market experience, our team advises developers, investors, landlords, and tenants on acquisitions, dispositions, and leasing strategies.

INVESTMENT SALES

Redevelopment Site

Our team provides strategic insight into land valuation, development potential, and market positioning. Supported by a disciplined marketing process and deep industry relationships, we help connect high-quality development opportunities with qualified developers.

Income-Producing Properties

For owners of commercial assets, we design and execute targeted sales strategies that position properties effectively within the investment market. Leveraging our network of investors and market intelligence, we help deliver transactions that align with our clients' financial objectives and long-term investment strategy.

LEASING ADVISORY

Landlord Representation

We work closely with property owners to develop leasing strategies that strengthen tenant mix, reduce vacancy, and enhance long-term asset performance. From market positioning and tenant outreach to negotiation and lease execution, our team manages the leasing process with a disciplined and results-driven approach.

Tenant Representation

Gammon advises tenants on site selection, market analysis, and lease negotiation across Metro Vancouver. Our objective is to secure locations and lease structures that support our clients' operational needs while providing long-term flexibility and value.
